

Supplier - DOVER  
**Doverlube FL-296**  
*Synthetic Esters*  
*Fatty Acid Derivatives*

### Typical Properties

|                             |                    |
|-----------------------------|--------------------|
| Appearance                  | Light Yellow Fluid |
| Viscosity@40°C,cSt          | 12                 |
| Acid Value,mgKOH/g          | < 1                |
| Color,Gardner               | < 5                |
| Std Packaging (NW / GW, Kg) | 192.0 / 175.0      |

### Product Description

**DOVERLUBE FL-296** (2-ethyl hexyl oleate) provides excellent lubricity with good low temperature fluidity. Its also offers good thermal stability when working with high temperature processes.

**DOVERLUBE FL-296** may be used in any concentration in straight oil formulations. It also may be used as a base oil, although its primary function is as a boundary lubricant.
