Appearance Clear Amber Liquid Specific Gravity@25°C 1.050 - 1.150 Viscosity@40°C, cSt 20 - 60 Sulfur Content,%wt 4 - 5 Fatty Ester Content, %wt 40 - 60 Flash Point C.O.C., °C > 160 Std Packaging (NW / GW, Kg) 200.0 / 217.0

Product Description

SMART BASE CR-2050 is a clear amber EP additive to replace chlorinated paraffin. It can be used in cutting oil formulations for heavy-duty metalworking.

SMART BASE CR-2050 will not stain non-ferrous metals, so it can be used for operations on non-ferrous and ferrous metals. It offers superior AW and EP properties to prolong tool life.

SMART BASE CR-2050 contains high volume of fat, thus can improve surface finishing of the workpieces.

SMART BASE CR-2050 can replace chlorine on one-to-one basis. For example, a cutting oil contains 4% of 50% chlorinated paraffin bringing to the formula 2% chlorine, therefore, 2% **SMART BASE CR-2050** would substitute the product.

SMART BASE CR-2050 is used in neat oil formulations mostly and not recommended for use in water-based product formulations (soluble oil, semi-synthetic and synthetic).
