Product Description

SMARTLUB LB6332 is a fatty ester that possesses low viscosity, low volatility and thermal stability characteristics; which can effectively mitigate wear of tools and the workpieces by maintaining a lubricating film at metal contact points during processing.

SMARTLUB LB6332 is designed for use in soluble oil, semi-synthetic and fully-synthetic formulations, which is specially good at grinding, wire drawing and honing processes.

SMARTLUB LB6332 is readily biodegradable and can be used as base oil for processing oils.
