Specialty Packages & Additives Specialty Packages & Additives

## **Typical Properties**

Appearance Clear Amber Liquid
Sulfur 7.0
Phosphorous,%wt 0.2
Lbs per Gallon 8.1
Flash Point,°C(°F) 140 (284)
Kinematic Viscosity@40°C,cSt 145

## **Product Description**

**FUNCTIONAL AO-550** is used for making ashless bar and chain oils, hydraulic fluids, industrial gear oils or whenever enhanced oxidative stability is required of a vegetable or mineral oil.

**FUNCTIONAL AO-550** also provides enhanced antiwear and rust protection properties. We recommend using a high-oleic version of a vegetable oil for optimum oxidation resistance.

**FUNCTIONAL AO-550** a proprietary mixture of oxidation inhibitors, anti-wear agents and rust inhibitor additives designed to give optimum performance in vegetable or mineral oils.

**Application Reccomendation** 

Biobased, Bar & Chain, Greases, Lubricating Oils, Gear Oils, Hydraulic Fluids Suggested Treat Rates, %wt

0.15 - 0.5
